PARTEX
MARKING SYSTEMS

identification product catalogue

Content

Welcome,

We are very proud of our company's dynamic development and how we invest in the future, in new technologies and environmentally friendly solutions.

Partex lead the world in industrial marking systems. We manufacture products for the identification of wires, cables, pipes and components. From the individual electrician to the world's largest companies, our unique marking systems contribute towards increased efficiency and higher safety levels.

Partex consists of a parent company and several subsidiaries. However, we want to be known as one organization, rather than as several separate companies. We want the family culture and atmosphere of the parent company Partex Gullspång in Sweden, to permeate the entire group, creating one big family.

On the following pages we invite you to familiarize yourself with our company and our products.

PARTEX MARKING SYSTEMS was founded in 1948 by Tore Lööf in Gullspång, Sweden. Since the beginning we have engaged in the production of complete marking systems and cable accessories.

Many of our clients know that Partex is a Swedish company and that we introduced the most popular one-character marker, the PA-marker. But you should know that our offer is much wider. This catalogue will be a useful guide to the world of marking systems and cable accessories.

It is worth mentioning that many of our products were established in response to specific requests from customers who had problems with identification. If you have a special requirement, do not hesitate to contact us as soon as possible.

WHY MARK?
Marking increases safety, reduces wasted time in manufacturing and production stoppages. Furthermore, marking simplifies maintenance and reduces costs for service, production loss, fault identification, repairs and exchange of electrical equipment.

Why Choose Partex? Partex offers a complete range of marking products. We have over 60 years' experience of development and manufacturing that has given us a unique expertise and knowledge in the field.

In order to ensure that our products have a high and consistent quality, they are subjected to numerous tests at the National Institute for Research and Testing in Sweden. Detailed research and stringent tests are carried out, such as the impact of mold, rust, fire, extreme temperatures, UV radiation and various chemicals.

Below is a list of tests.

TEST	METHOD
Flammability	according to UL94
Low temperature	markers are kept at -30° C for 4 hours. Checking cracks, fractures and similar damage. In addition, the ease of assembly is checked.
High temperature	markers kept at a temperature of 70° C for 1 hour. If the material has passed the test, the test is repeated at a higher temperature.
Aging resistance	accelerated thermal aging, corresponding to the use of material through 30 years at 20° C. Checking cracks, fractures and similar damage. (Up to 50% reduction in elongation before fracture). In addition, the possibility of assembly is checked.
UV resistance	accelerated UV-test, corresponding to ISO 4892-2. Exposing the material to sunlight for a period that equals one year in southern Sweden. Checking for fading, changes in color and readability of the print.
Resistance to abrasion (text)	in accordance with Method 2172 Swedish National Testing and Research Institute (machine abrasive). Using a load of 75 g per millimeter.
Chemical resistance	mounted markers are immersed in the chemical agent at a temperature of 23°C - 2 C, left for 2 hours, and then checked for functionality, durability, color and clarity of printing. Chemicals used: synthetic diesel fuel, sulfuric acid (25%), cleaning agent (Berol 226, 10%), distilled water, sea water (5% NaCl), transformer oil (Nytro 10X) and Ethanol (95%).
Dielectric resistance	in accordance with IEC 93
Ozone resistance	the test samples are extended by 33% and exposed to ozone to 100 ± 5 pphm at 65° C to -2°C for 192 hours.

+ MARKING METHODS

M1 SINGLE CHARACTER MARKERS	**M2** MULTI CHARACTER MARKERS	**M3** ON-SITE
Consists of single character markers that can be combined with each other to give total marking flexibility.	Allows you to order markers already printed with the complete information in accordance with your specification.	Allows you to produce your own markers on site with one of Partex marking machines.

P = Semi cut markers in strips in bags
S = Semi cut markers on compact disc

6. Type of print
B = Black ink jet print
V = Hot stamped print
N = Neutral / Blank markers

7. Colour of profile
Colours according to the international colour code

8. Colour of print
Print colour according to the international colour code.
Some products can only be printed in black or white.

9. Type of characters
A-Z Letters
0-9 Numbers
Special characters such as: + - / earth sign etc.

INTERNATIONAL COLOUR CODE

We offer several types of printing. For example, single-character markers are hot stamped and multi-character markers are printed with ink or thermal transfer.

The colours of our markers are consistent with international colour code shown below.

0 black marker (RAL9011) white print	**7** violet marker (RAL4006) white print
1 brown marker (RAL8015) white print	**8** grey marker (RAL7005) black print
2 red marker (RAL3018) white print	**9** white marker (RAL9010) black print
3 orange marker (RAL2004) black print	yellow-green marker black print
4 yellow marker (RAL1021) black print	**+** red marker, white print
5 green marker (RAL6001) white print	**–** blue marker, white print
6 blue marker (RAL5010) white print	

WIRE MARKERS

PY
Single character closed markers for wires with small diameters.

▶ **page 14**

PA/PAZ
Single character closed markers. Chevron Cut.

▶ **page 14**

PZ
Single character closed markers. Straight Cut.

▶ **page 16**

PC
Single character open markers.

▶ **page 18**

PCA
Single-character open marker

▶ **page 20**

PK+
Single-character markers mounted on wires.

▶ **page 22**

PA+/PC/PK+
Multi-character marking
Markers printed according to customer requirements.

▶ **page 26**

PO/POZ
Multi-character marking
Oval profile for marking wire and cable (POZ - Halogen-free).

▶ **page 28**

PHZ
Multi-character marking
Heat-shrink tubing for thermal transfer printers.

▶ **page 32**

PHZF
Multi-character marking
Flat, halogen free heat shrink for thermal transfer printers.

▶ **page 34**

SG/MS/HF/NF/EF/ET
ProSleeve ladder format printable heat-shrink tubing.

▶ **page 36-46**

PT+
PA type sleeve with oval, transparent pocket for marker tags.

▶ **page 48**
PTZ+
Multi-character marking
Halogen free, PA type sleeve with oval, transparent pocket for marker tags.

▶ **page 48**

PTC
Multi-character marking
PC type sleeve with oval, transparent pocket for marker tags.

MARKING MACHINES
PROMARK-T1000
Professional and portable thermal transfer printer, for the production of markers.
▶ page 100

EOS1
A compact thermal transfer printer suitable for printing onto PPQ cable markers.
▶ page 104

MK10-SQUIX
Thermal transfer industrial printer to print markers
▶ page 106

MK10-DH
Thermal transfer industrial printer to print double-sided markers
▶ page 108

PRIMACY
Thermal transfer printer specifically designed for PFC cards.
▶ page 112

RIBBONS
Thermal transfer ribbons for use in the EOS1, MK10 and MK10-DH printers
▶ page 81

Promark Creator
Software for controlling Partex marking machines.
▶ page 114

LABELS

PE-P
Plates engraved with a two-layer plastic laminate.
▶ page 72

SSDT
Stainless steel dog tags laser engraved
▶ page 73

SL/CL
Warning, Danger and PAT test labels.
▶ page 74

EPL/EPF
ProSleeve ladder format printable panel labels.
▶ page 80

PS - Component markers
Universal markers for marking modular and electrical components.
▶ page 82

PP+
Flat profile for insertion into marker carriers or mounted terminal blocks.
▶ page 84

PPA+
Self-adhesive flat profile for component marking.
▶ page 84

PROMARK-PL
Self-adhesive labelling tape.
▶ page 103

CABLE TIES AND TOOLS

HFC
Halogen-free cable ties made from Nylon 6.6.

HFC-UV
Cable Ties for outdoor use.

MAR
Cable ties for marking

TT1
Automatic tool for nylon cable ties.

SST
Stainless steel cable ties.

SSTC
Coated cable ties Cable ties in stainless steel, coated with a layer of polyester

SSTM
Mounts for Stainless steel cable ties

SSTG/SSAT
Tensioning tools for stainless steel cable ties

TIE PEN
Pen for manual marking of markers

SP
Spiral tube.

AKCESSORIES
CAS
Cassettes to store single-character markers PA.

MD/MDH
Holder and applicators for single marker PA.

PLD
Self-adhesive wrap around markers.

PUJ/MD10
Applicators for easy assembly of single character markers.

PAL/B
Box for storage of single-character markers.

PAL/50
Box for storage of single-character markers.

SRC-T
Cardboard marker dispenser

SRP
Heavy duty, steel marker dispenser

MULTI CHARACTER MARKERS

M2

SAVING. Customized multi-character marking increases efficiency. The more complex the job, the greater the potential time saving. Furthermore, there is no waste. Ordering the markers ready-sorted saves even more time.

SIMPLICITY. We have also made it easy to order M2 markers. Simply choose the method that suits you best. Anything from an emailed Excel list to direct ordering via the internet, using MarkOnLine. - order when, where and how you like. It could not be any simpler!

SAFETY. Using our M2 system ensures the highest quality and accuracy. A correct original specification guarantees a correct end result. This is because all the markers are printed in advance!

SELECTION. Our M2 system leaves you entirely free to adapt your marking to your needs. Product types, sizes, colours, materials, sorting methods, packaging – we understand our customers needs and can offer the widest possible selection of solutions.

ONLINE ORDERING. Design your own customised markers online with our easy to use website: https://markonline.partex.co.uk

SORTING AND PACKAGING OPTIONS FOR OUR CUSTOMIZED MULTI CHARACTER MARKERS

MFS10 – The same type of markers sorted on a roll or in a bag.

MFS20 – Various types of markers sorted in one bag. Sorted for example according to drawing,, cabinet or cables.

MFS30 – „Double Sorting", eg the cabinet, inside cabinets - by individual cables. Markers can also be ordered on adhesive tape or a sheet.

MFS40 – Markers mounted with cable ties and holders (PKH), sorted on a sheet or adhesive tape.

ON A REEL / IN A BAG

Your customised markers can be sorted and packaged however you require.

WIRE- AND CABLE MARKERS

PHZ - HEAT SHRINK FOR PRINTING
+ INFORMATION

+ Flexible, round profile made of cross-linked heat shrinkable polyolefin.

+ Many applications in industry.

+ Excellent properties and fire safety characteristics.

+ Low smoke generation and evolution of acid gases.

+ 2:1 shrink ratio.

+ PROPERTIES

Temperature range
-55°C to +125°C

Material
polyolefin, flame retardant in accordance with ASTM D2671

Print
thermal transfer

Standard colours
yellow and white, other colours available on request

According to the standard
AMS-DTL-23053 Class 1
BS 6853:1999
CEN/TS 45545-2
UNI CEI 11170-3

NF - PRINTABLE HEAT SHRINK SLEEVES (DIESEL RESISTANT)

+ INFORMATION

NF - Diesel Resistant Printable Heat Shrink Sleeves

Very flexible, high temperature rated, highly flame retardant, UV Stabilised heat shrinkable tubing (3:1 shrink ratio). Ideally suited for applications where resistance to organic fluids, common fuels, lubricants and solvents are required. Flexible polyolefin sleeves used for wire identification. Markers are supplied roll form in a flattened format on a backing which can also be printed to aid sorting.

+ Diesel Resistant

+ Flame Retardant

+ Self Extinguishing

+ Meets SNCF Spec. NF-F00-608

+ Easy Pick Application

+ INFORMATION

ET - **E**xtreme **T**emperature Printable Heat Shrink Sleeves

Very flexible, high temperature rated, highly flame retardant, heat shrinkable tubing (2:1 shrink ratio). Flexible polyvinylidene flouride sleeves used for wire identification. Suitable for use in applications where extreme temperatures and harsh chemicals can be found.

+ Flame Retardant to UL224 VW-1

+ Self Extinguishing

+ Meets requirements of SAE-DTL-23053/18

+ Easy Pick Application

+ Backing card perforated after every sleeve

+ Print performance to Military Specifications

+ RoHS and REACH Compliant

+ SPECIFICATIONS

Temperature range
-55°C to +225°C

Material
flexible polyvinylidene flouride

Print
thermal transfer

Standard colours
white

Shrink ratio
2:1

Certified and issued to:
SAE-AMS-DTL-23053/18
UL224 VW-1 Flammability

Print performance to military specifications
Adherence: SAE-AS5942
Fluid Resistance: MIL202G Method 215J

HEAT SHRINK
+ INFORMATION

+ PA type sleeve with oval, transparent pocket for PFC and PP+ profile.

+ Specially designed pocket protects the label from damage and keeps it in place.

+ PFC or PP+ may be inserted both before or after application of the marker.

+ Four sizes with the same pocket size cover most cable diameters.

+ Help to reduce inventory and reduce cost of marking.

+ Also available in Halogen free material (PTZ+).

+ PROPERTIES

Temperature range
PT+: -30°C to +60°C

PPQ - FLAT CABLE MARKER

123 M2   **123 M3**

+ INFORMATION

+ Flat cable marker with pre-punched holes

+ Easy to mount on the cable with cable ties

+ Very durable and fast print with printer MK10 or MK10-DH, up to 2000 markers per hour .

+ Also available pre-printed according to customer specifications.

+ Flexible material which neatly forms to the cable

+ Adjustable font size gives the ability to have up to 5 lines of text

+ SPECIFICATIONS

+ PPQ + is a flat profile with pre-punched holes. The profile is supplied on reels and have fixed lengths. PPQ+ can be printed on the MK-10 or EOS1 printers, or can be ordered pre-printed according to customer specifications.

+ Profile to be printed on the MK10 or EOS1 printers is supplied on 20 meter reels containing between 300 and 500 markers.

+ PROPERTIES

Temperature range
Temperature range: -20°C to +60°C (-4°F to +140°F)
Storage temperature: +10°C to +27°C (+32°F to 81°F) < 95% Rh

Material
Soft PVC

Print
thermal transfer

Resistance
self-extinguishing to UL94-V0
excellent service life and resistance to UV radiation and chemicals.

APPLICATION
TIE TAG - WRITE ON CABLE MARKER

+ INFORMATION

+ A simple and cost effective way of identifying cables.
+ Available in a range of colours and sizes.
+ Can be secured with any Partex cable tie up to 4.8mm width.

+ DIMENSIONS

TYPE	OVERALL LENGTH	WRITABLE LENGTH	WIDTH	PACKAGING	
TIETAG60*	60 mm	27 mm	9.5 mm		pack of 100 pcs.
TIETAG82*	82 mm	50 mm	9.5 mm		pack of 100 pcs.
TIETAG110*	110 mm	75 mm	9.5 mm		pack of 100 pcs.
TIETAG152*	152 mm	117 mm	9.5 mm		pack of 100 pcs.

* Available in white or yellow, specify colour when ordering.
+ APPLICATION

- Marker pen with fine tip.
- Perfect for writing on clean flat surfaces.
- The ink reacts with the material to make the text waterproof and resistant to abrasion.

+ INTRODUCTION

+ To complement our hugely successful Laser Engraving Service, Partex are able to offer high quality printed polypropylene labels at extremely competitive prices, produced in house at our Coleshill manufacturing facility.

+ In addition to the standard labels shown in the following pages, we are also able to produce bespoke labels to your design. We offer a very quick turnaround for both short and long runs of labels. There are no set-up charges.

+ We can offer either;
- Our SL range of thermally printed labels with black text or symbols on a high visibility yellow background, this durable range of labels is ideal for warning and danger labels.
- Our CL range of glossy white labels are printed using a state of the art Memjet printer which can reproduce full colour photo quality labels in a wide variety of sizes.

+ Both types of label are made from strong polypropylene material which will not tear or stretch out of shape when applied.
They are backed with a strong permanent adhesive which will even adhere to irregular surfaces and is resistant to water, oil and many chemicals.

+ INFORMATION

+ A wide range of durable thermal or colour printed labels.

+ Easy to apply non-tear material.

+ Resistant to water, oil and chemicals.

+ Good adhesion to irregular surfaces.

+ Colour labels produced using latest MemJet technology.

+ In addition to our standard catalogue range we are able to produce special labels to suit customers requirements.

+ PROPERTIES

Temperature range
-10°C to +80°C

CL7550DMM

This installation, or part of it, is protected
by a device which automatically switches
off the supply if an earth fault develops.
Test quarterly by pressing the button
marked 'T' or 'TEST'.
The device should switch off the supply
and should be switched on to restore the
supply. If the device does not switch off
the supply when the button is pressed,
seek expert advice.

CL7550TEST

IMPORTANT

THIS INSTALLATION SHOULD BE PERIODICALLY
TESTED AND INSPECTED AND A REPORT ON
ITS CONDITION OBTAINED, AS PRESCRIBED IN
THE REGULATIONS FOR ELECTRICAL
INSTALLATIONS ISSUED BY THE INSTITUTE
OF ELECTRICAL ENGINEERS.

SRC-T CARDBOARD BOX FOR MARKER REELS

+ INFORMATION

+ Cardboard dispenser box for Partex compacta discs.
+ Ideal for storing a selection of Partex markers.
+ On-site combination marking at a glance and at your fingertips.

+ DIMENSIONS

SRC-T can hold 12 reels of PA02, 10 reels of PA1, 7 reels PA2, 5 reels PK+

TYPE	LENGTH [L mm]	WIDTH [W mm]	HEIGHT [H mm]	COMPARTMENTS
SRC-T	130	80	130	1
+ Robust steel plate storage box for Partex compacta discs

+ Detachable upper tray for cable accessories.

+ Flexible carrying handle.

+ Holes for different suspension arrangements.

+ An excellent accessory which simplifies marking work.

+ PROPERTIES AND DIMENSIONS

SRP can hold 14 disks PA-2 or 11 disks PK+
TYPE	LENGTH [mm]	WIDTH [mm]	HEIGHT [mm]	COMPARTMENTS
SRP	160	160	163	6 + place for discs

ACCESSORIES

SP - SPIRAL TUBING

+ INFORMATION

+ Flexible spiral tube for fitting cables, conductors, tubes, wire bundles etc.

+ Excellent protection against mechanical wear.

+ Permits flexible connection between cabinet and door mounted units.

+ Also available in halogen free version (SPZ)

+ Snap-on fastener for holding tube into mounting plate holes.

+ PROPERTIES

Temperature range
-30°C to +60°C

Material
PVC

Standard colour
grey, black

Fixing
snap-into fastener of spiral tube in holed mounting plates.

+ DIMENSIONS AND PACKAGING

PROMARK T-1000 - MARKING MACHINE

+ INFORMATION

+ Compact, fast and portable printer to cover most of your marker needs.

+ Easy to operate with Partex product menu.

+ Feeds, prints and cuts bulk Partex profiles and self adhesive labels.

+ Store and import markerfiles with a USB - PC connection.

+ Cost effective identification system for use in panel building and electrical installations.

+ PROPERTIES

Temperature range
Operating temperature: +15℃ – +32,5℃

Operating temperature with pre-heater: from +5℃

Storage temperature: +5℃ – +35℃

To obtain the best printing result, the temperature of the profile shouldn't be lower then: +20℃

Thermal transfer printing
300 dpi print resolution

Printing speed
18.5 mm/s – low speed mode

25 mm/s - standard mode

40 mm/s – high speed mode

Text heights
1.3, 2, 3, 4 or 6mm

Maximum rows that can be printed:
1-3 rows

PC connection
USB 2.0 and Partex software WinSign

Internal Memory
15000 characters

Number of characters to be sent to PC
No limits with WinSign T-1000

Power
Power Supply 100 ~ 240 V AC (50 ~ 60 Hz)
Power: 13 W
Certified with **CE mark**

Dimensions
(L x W x H): 250 x 300 x 85 mm

Weight
2 kg

+ KIT CONTENTS

+ PROMARK T-1000, soft carrying case,

+ AC adapter, power cord,

+ Ink ribbon, black, 40 m,

+ Profile guide

+ USB cable,

+ software,

- + ProMark T1000 is a successor to our most popular profile printer the T800. Complemented with new options, such us Polish and Russian font, and menu with Partex article numbers, is a perfect solution for installers and producers of control cabinets and panel boards.

- + Low weight, small size, as well as inbuilt memory allow you to operate the printer on site. The library of electrical symbols enables you to print objects such us Ω, , etc.

- + An additional asset will be the menu with Partex products indexes. After selecting the type of a profile, T-1000 will automatically choose the position of text and the depth of the cut.

- + The backlit display and QWERTY keyboard allows entering additional symbols very quickly. The advanced projects can be sent to T-1000 via the new, English version of WinSign software, which enables you to import Excel files with the "copy and paste" function.

+ PROFILES TO PRINT

- + PO and POZ profiles with diameters of 1.3 – 5.5 mm (POZ is the halogen-free version)

- + PHZ – round, halogen-free, heat shrinkable tubes with diameters 2.4 – 6.4 mm before shrinking

- + PHZF – flat, halogen-free, heat shrinkable tubes with diameters 2.4 – 6.4 mm before shrinking

- + PP+ profile – height of 4.6 and 9.0 mm compatible with profiles: PT+/PTC/PTZ and PM, PTM, PS

- + PP+ profile – height of 6.3, 10.0 and 11.0 mm compatible with Wago connectors (TopJobs), Phoenix Contact, ABB Entrelec.

- + PPA+ – self-adhesive profile

- + PO-068 profile – used for marking cables with PKH and POH holders

- + PROMARK-PLL – self laminating marker for wires and cables

- + PROMARK-PL – adhesive tape with a width of 6mm, 9mm and 12mm available in the form of cassettes which you place into the printer

MK10-SQUIX - THERMAL TRANSFER PRINTER

NEW

INFORMATION

+ Compact heavy duty printer for high demand production for wire, cable and component marking.

+ Feeds, prints and cuts bulk Partex profiles.

+ MK10 is a very cost effective identification system for use in panel building and electrical installations.

+ USB connection, controlled by Partex software.

+ Quick and simple handling thanks to the touch screen.

+ The built-in Wi-Fi module allows for wireless data transmission.

PROPERTIES

Temperature range
Operating temperature: 0°C - 40°C

Storage temperature: 0°C - 60°C

To obtain the best printing result, the temperature of the profile shouldn't be lower then: 20 - 25°C

Thermal transfer printing
300 dpi print resolution

Printing speed
300mm/sec

Width of printing head
105,7 mm

PC connection
USB and Partex software

Operating System
Windows: 2000, 2003, XP, Vista, Windows 7, Windows 10

Memory
256 MB RAM, 50 MB IFFS

Power
110~240 V AC, (50~60 Hz), FCC class A, CB, CCC, cUL

Certified with CE mark

Dimensions
(W x D x H): 252 x 288 x 460 mm

Weight
10 kg

KIT CONTENTS

+ Printer MK10-SQUIX

+ Cutter (optional)

+ Power cord

+ Starting ribbon black 360m

+ USB cable

+ Software

+ Wi-Fi module

+ MK10-SQUIX is a modern thermal transfer printer with a high production speed (up to 300mm/sec).

+ MK10-SQUIX can be connected to your computer with a USB cable or WI-Fi module and controlled by Partex software.

+ The profiles are introduced to the printer from outside or unrolled from rolls and discs placed inside the device, then they are printed and perforated to the specified length selected by the user.

+ Numerous features, the touch screen, and broad printer head with 300 dpi resolution make that this is an excellent device for industrial applications.

PROFILES TO PRINT

+ PO and POZ profiles with diameters of 1.3 - 8.0mm (POZ is the halogen-free version).

+ PHZF – Flat, halogen-free, heat shrinkable tubes with diameters 2.4 - 38.0mm before shrinking.

+ PP+ profile – Height of 4.6 and 9.0mm compatible with profiles: PT+/PTC/PTZ and PM, PTM, PS.

+ PP+ profile – Height of 6.3, 10.0 and 11.0mm compatible with Wago connectors (TopJobs), Phoenix Contact, Etrelec.

+ PPA+ – Self-adhesive profile.

+ PO-068 profile – Used for marking cables with PKH and POH holders.

+ Labels.

+ Prosleeve:
  - The series of specialised markers with increased resistance
  - ladder format printable heat-shrink tubing SG,MS,HF,NF,EF,ET
  - cable markers CMZ,CMM,CMD,CML,CMT
  - panel label EPL,EPF.

Cutting

RIBBONS

- ✛ MK10-DH is a modern thermal transfer printer with a high production speed (up to 125mm/sec).

- ✛ MK10-DH can be connected directly to a computer with a USB cable and is controlled by Partex Winsign software. It prints onto both sides of the profile, direct from the reel, and can cut the markers to the required length.

PRIMACY - THERMAL TRANSFER PFC CARD PRINTER

123 M3

+ INFORMATION

+ Cost effective printing solution for Partex marker cards system.

+ Single sided printer for larger production volumes.

+ Prints onto Partex PFC-cards.

+ Connected to a PC and controlled by Partex WinSign software .

+ PROPERTIES

Temperature range:
Operating temperature: +15°C to +30°C
Storage temperature: -5°C to +70°C

Operating humidity: 20% to 65% non-condensing
Storage humidity: 20% to 70% non-condensing

To obtain the best printing result, the temperature
of the profile shouldn't be lower than +20°C

Thermal transfer printing
300 dpi print resolution

PC connection
USB (1.0, 1.1, 2.0, 3.0) and Partex WinSign software

Dimensions
247x205x381mm (HxWxD)

Printing speed
1000 cards/hour monochrome

PROMARK CREATOR

+ | INFORMATION

+ Promark Creator is an excellent tool for the design and production management of markers

+ An intuitive program that allows you to flawlessly select markers with the proper parameters.

+ It enables the user to design even the most complex and elaborate description;

+ An advanced expression editor for the imported data is provided for this purpose.

+ Indispensable for the designers.

+ Extremely helpful both for users of the PROMARK family of printers and those who prefer to order ready printed and sorted markers direct to site.

+ | SYSTEM REQUIREMENTS

Operating system
Windows XP or newer

CPU
Pentium 2GHz

RAM
2GB

Software
.NET Framework 4.0 or newer

Resolution
recomended 1366x768 or greater

+ | TYPES

THE PROGRAM HAS TWO VERSIONS:

+ **DESIGN** – free unlimited time version intended for system designers and for those preparing technical documentation: marking of cables, wires, connectors and electrical components. This version enables the designof even the most complex descriptions. It allows for any configuration of the imported data, it is equipped with an advanced editor, and a variety of formatting features

+ **DESIGN AND PRINT** – version with all the features of the design, enriched with the ability to print. This version allows to print names on multiple devices and different profiles at the same time, while creating another documents. DESIGN AND PRINT is a licensed version of the Application, which operates thanks to renewable annual subscription.

PROMARK CREATOR
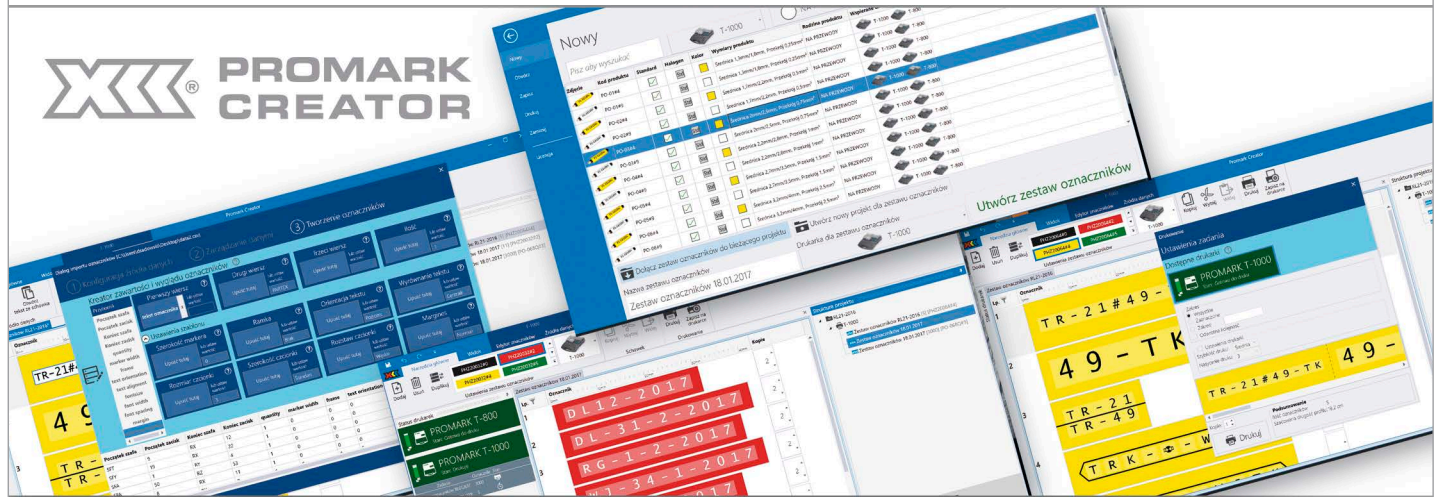

+ **MDIW – MARKING DATA IMPORT WIZARD**
  Create your own projects by selecting the data important to you, out of the hundreds of parameters within the software. Add your own unique descriptions, symbols or numbers. You can also design the appearance of each marker during the data import. Automatically and easily import data from a variety of sources, including design programs such as SEE Electrical or Eplan

+ **VD – VISUAL DESIGN**
  Never again will you have to print a test marker to see what your work will look like. Thanks to the Promark Creator, you can be sure that the markers after printing, will look the same as they do on your computer screen.

+ **DP - DESIGN AND PRINT**
  You can print one project, and start building the next one without having to wait for completion of the printout.

+ **MP - MULTI PRINTING**
  The program allows you to simultaneously print several projects on multiple devices. This means that you can produce markers for different diameters of cables, or electrical components at the same time, without having to change the media.

+ **VP - VIRTUAL PRINTING**
  You do not have a printer? It doesn't matter! Any project that you prepare can be printed directly on the PARTEX production line! The completed markers will be sent to you immediately after printing.

+ **DSS – DESIGN, SAVE AND SEND**
  Create projects in one department and print them in another departments or even on site - wherever there is a dedicated printer.
